Jan. 20, 2023 - Subsidiarity. Political, social and economic organizing principle that stands in opposition to centralized bio-digital totalitarianism

“...Subsidiarity is the opposing social and economic moral principle to the globalists’ nightmare vision of a biologically- and digitally-controlled central government for the whole world.

Pope Pius XI, 1931 encyclical On Social Reconstruction<sup>1</sup> (*Quadragesimo anno*):

As history abundantly proves, it is true that on account of changed conditions many things which were done by small associations in former times cannot be done now save by large associations. Still, that most weighty principle, which cannot be set aside or changed, remains fixed and unshaken in social philosophy: Just as it is gravely wrong to take from individuals what they can accomplish by their own initiative and industry and give it to the community, so also it is an injustice and at the same time a grave evil and disturbance of right order to assign to a greater and higher association what lesser and subordinate organizations can do. For every social activity ought of its very nature to furnish help to the members of the body social, and never destroy and absorb them.

The supreme authority of the State ought, therefore, to let subordinate groups handle matters and concerns of lesser importance, which would otherwise dissipate its efforts greatly. Thereby the State will more freely, powerfully, and effectively do all those things that belong to it alone because it alone can do them: directing, watching, urging, restraining, as occasion requires and necessity demands. Therefore, those in power should

be sure that the more perfectly a graduated order is kept among the various associations, in observance of the principle of "subsidiary function," the stronger social authority and effectiveness will be [and] the happier and more prosperous the condition of the State.

...Subsidiarity is a fully-developed social, political and economic moral philosophy that can be used to better challenge and defeat the Luciferian secularist-communist-socialist-capitalist-materialist enslavement system proposed by the deranged lunatics now gathered in Davos.

Subsidiarity can be used to build up the kinds of human societies that Our Lord Jesus Christ wants us to live in, instead...

Covid-times exposed the preemption doctrine — the opposite of subsidiarity — imposed on a global scale.

The transnational corporate powers effectively preempted nation-state powers, using fear (psychological manipulation through centralized, captured mass media); legal mechanisms; and financial coercion..."

May 23, 2023 - A three-part spiritual-geopolitical framework.

“...I’ve also been gathering information and thinking about the parallel process through which the same forces working to sterilize, sicken and kill lots of people, have also pursued — in a similarly deliberate, incremental, covert way — the destruction of the Catholic Church, the Mystical Body of Christ. Some of the relevant events in Catholic Church history are included in the American Domestic Bioterrorism Program<sup>2</sup> [timeline].

I agree with Malachi Martin and many others past and present, who believe, compile evidence, and argue that the destruction of the Roman Catholic Church specifically, and especially the authority of the Pope, has long been a top priority for supernatural beings (Lucifer, Satan, all fallen angels) and for their human contractors (Rothschilds, Rockefellers, Kissinger, Gates, Schwab, Soros, Hariri, Adhanom-Ghebreyesus, Becerra, Fauci and hundreds of others).

Why?

Because the worldwide spiritual moral leadership and exhortation of the popes of Christendom, on civil authorities during the centuries since Christ walked on the earth, have been the primary forces keeping evil ideologies of atheist materialism at bay...

The nature of corruption within the Roman Catholic Church began to change significantly sometime around Pope Leo XIII’s terrifying Oct. 13, 1884 vision, during which the Pope heard God grant Satan’s request for more latitude with which to tempt and corrupt humans. The experience prompted Pope Leo XIII to write the Prayer to St. Michael the Archangel.

Since then, the corruption of the Catholic Church has followed a pattern of intentional, infiltrative, incremental, inversion-of-truth processes, in parallel with and mirrored by the corruption mechanisms inflicted on civil authorities (governments of nation-states) and civil law.

Geopolitical events experienced by humanity in the decades since 1884 — including two world wars and many State-sponsored mass killing campaigns — reinforce this conclusion.

The spiritual-geopolitical worldview outlined here currently has three parts:

1. Corruption of the Catholic Church, to remove it as an obstacle to corruption of civil society and individual human souls.
2. Corruption of civil society at the nation-state [State] level, and substitution of global anti-human government: one-world, atheist, materialist programs operated by and for owners and administrators

working within Bank for International Settlements, United Nations Security Council, World Health Organization, US Department of Defense and other supranational institutions.

3. Corruption of human national and international law, to strip it of functions that uphold Christian teachings about God-given human dignity, and transform it to render Luciferian, God-hating, anti-human, body-, mind- and soul-destroying acts and omissions immune from civil and criminal prosecution...

Sept. 5, 2023 Notes

A few months ago, I did a keyword search on “subsidiarity” in my document collection, and got several hits in European Union governing documents produced in recent decades.

In preparation for an October panel discussion, I did a little more subsidiarity research yesterday. Some of the relevant EU documents are linked below for readers who want to study, think about and work on these issues.

The European documents provide a window into how Satanic globalists manipulate the EU power centralization process to suppress Catholic subsidiarity principles that were included in original treaties, and how the Satanic globalists thereby reduce the range of motion and political confidence of nation-states, their elected and hereditary government leaders, and their citizens.

In the United States — as a Constitutional, federal republic — principles related to subsidiarity are enshrined in the Tenth Amendment: “The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.”

In compliance with the Satanic globalist blueprints, this is why SCOTUS Chief Justice John Roberts moved so rapidly to emasculate US courts at the start of the fake pandemic-predicated push for more comprehensive, more centralized world control.

Roberts unilaterally stripped US courts of their formerly co-equal power during the early fog of the psycho-biochemical war, through his May 2020 stand-down order in *South Bay United Pentecostal Church v. Newsom*,<sup>5</sup> directing judges to not even attempt to review or “second-guess” emergency actions taken by executive and legislative branches.

“The precise question of when restrictions on particular social activities should be lifted during the pandemic is a dynamic and fact-intensive matter subject to reasonable disagreement.

Our Constitution principally entrusts “[t]he safety and the health of the people” to the politically accountable officials of the States “to guard and protect.” *Jacobson v. Massachusetts*, 197 U. S. 11, 38 (1905). When those officials “undertake[ ] to act in areas fraught with medical and scientific uncertainties,” their latitude “must be especially broad.” *Marshall v. United States*, 414 U. S. 417, 427 (1974).

Where those broad limits are not exceeded, they should not be subject to second-guessing by an “unelected federal judiciary,” which lacks the background, competence, and expertise to assess public health and is not accountable to the people. See *Garcia v. San Antonio Metropolitan Transit Authority*, 469 U. S. 528, 545 (1985).”

Chief Justice Roberts’ May 2020 order suppressing the Constitutional review function of US courts remains in effect today (Sept. 5, 2023).

To my knowledge, no Constitutional claims have made it past the motion to dismiss stage, and statutory or administrative law claims (under the Religious Freedom Restoration Act and Administrative Procedures Act, for example) have — at best — resulted in temporary and revocable injunctions to temporarily restrain executive and legislative abuses of power. Those injunctions will hold only until the next “emergency” power grab, or until prosecutors, judges and lawmakers fight back and successfully throw out the technocratic imposters, usurpers and occupiers.

\*

[Update/clarification posted 10 p.m. EST, Sept. 5, 2023:

I’m not aware of any federal or state Constitutional cases challenging government Covid-19 policies (State-sponsored mass murder on public health emergency pretexts, using biochemical weapons camouflaged as ‘vaccines,’) as violations of Constitutional rights to life, property, and due process, (mostly Fourth, Fifth, Fourteenth Amendment cases and 18 USC 242 “color of law” deprivation of rights cases) that have survived government motions to dismiss to enter the discovery phase.

*Missouri v. Biden*<sup>6</sup> is a federal Constitutional First Amendment case challenging government censorship of information, including information about Covid-19, through social media and other media platforms. That case did obtain some discovery (including November 2022 deposition of Anthony Fauci), and a temporary injunction, followed by a Fifth Circuit stay of the injunction. *Missouri v. Biden* only challenges the US government’s claim to have authority to censor speech about State-sponsored mass murder on public health emergency pretexts, using biochemical weapons camouflaged as ‘vaccines.’]

\*

*Subsidiarity strikes morally-sound balance between individual and society.*

My view is that a legitimate government in each nation-state of the world currently exists, and that they are each being temporarily eclipsed and suppressed by illegitimate, unlawful administrative state overlays.

In most cases, the legitimate nation-state governments — whether elected representatives or hereditary monarchies — have been placed under duress, manipulated, deceived, bribed, tempted, frightened and coerced into adopting laws that purport to transfer ruling power<sup>7</sup> from elected or hereditary governments, into the unelected and non-hereditary hands of technocratic administrators.

The laws purport to carry out these power transfers; the technocrats act every day as if they have power; and they get away with it to the extent that others fall for their deceptions.

But under the terms of natural and divine law, the power transfers and all acts derived from them are illegitimate, because an unjust law is no law at all.

Pope Leo XIII, *Rerum Novarum*/On the Condition of the Working Classes<sup>8</sup> (1891):

“...For laws only bind when they are in accordance with right reason, and, hence, with the eternal law of God,” citing St. Thomas Aquinas, *Summa Theologica*, I-II, Q. 93, Art. 3, ad. 2, “Human law is law only in virtue of its accordance with right reason: and thus it is manifest that it flows from the eternal law. And in so far as it deviates from right reason, it is called an unjust law; in such case it is not law at all, but rather a species of violence.”

Satan works through lies, temptation and fear.

God works by sending his creatures grace and strength to resist temptation, to see through lies, and to trust in His providence, mercy, love and justice.

The eclipsed, coerced, hostage governments sitting in chambers all over the world derive the authority — which they still hold but are not wielding effectively at the moment — from Almighty God, not directly from the people, even if (in some countries) the indirect mechanism by which specific rulers come to power includes popular (albeit more or less corrupt<sup>9</sup>) elections.

It is to Almighty God that today's government leaders will be required to render an account of how they have conducted themselves and used or misused the power He has placed into their hands: whether they've used it to help save souls for eternity, or to damn them.

For these and many other reasons, I do not support, endorse, or recommend participation in the sovereign citizens, state nationals and related movements in which many Bailiwick readers are deeply invested and about which they regularly comment. I don't think individual human beings can (morally) or should (practically) try to walk away from the human societies into which God has placed us, using the linguistic and paperwork tools advocated by TASA<sup>10</sup> and other organizations.

I share the conviction held by these readers, that the American government and American society are in a deep crisis, as are human governments and societies worldwide.

But I diagnose the crisis differently.

I therefore devote my time to researching, offering and supporting a different set of remedies, urging people to work at the personal, family, parish, county, state and federal levels to refuse compliance with unjust laws, and to identify, educate and support lawmakers, prosecutors, executives and judges who will block, nullify, reverse, and repeal the illegitimate laws that created the unlawful, Satanic, administrative technocrat overlay,<sup>11</sup> which is actively suppressing the functioning of existing lawful legislatures, courts, executives and prosecutors.

The unlawful administrative overlay was added to human society by identifiable acts.

The unlawful administrative overlay is therefore removable.

The Catholic subsidiarity framework provides support and guidance.

*European Union documents addressing subsidiarity*

The Official Journal of the European Communities (OJEC) and Official Journal of the European Union (OJEU) are analogous to the US Federal Register.

They are document publishing platforms through which outlaw/extralegal technocrats pretend to make, execute, interpret and enforce law for nation-states and peoples, usurping the God-given ruling authority of elected or hereditary legislators, judges, executives and prosecutors.

In my reading so far, it appears that Article 5 and Article 10 of the 2008 consolidated Maastricht Treaty,<sup>14</sup> along with implementing protocols,<sup>15</sup> are the most relevant.

...Article 5 (1). The limits of Union competences are governed by the principle of conferral. The use of Union competences is governed by the principles of subsidiarity and proportionality.

Article 5 (2). Under the principle of conferral, the Union shall act only within the limits of the competences conferred upon it by the Member States in the Treaties to attain the objectives set out therein. Competences not conferred upon the Union in the Treaties remain with the Member States.

Article 5 (3). Under the principle of subsidiarity, in areas which do not fall within its exclusive competence, the Union shall act only if and in so far as the objectives of the proposed action cannot be sufficiently achieved by the Member States, either at central level or at regional and local level, but can rather, by reason of the scale or effects of the proposed action, be better achieved at Union level.

The institutions of the Union shall apply the principle of subsidiarity as laid down in the Protocol on the application of the principles of subsidiarity and proportionality. National Parliaments ensure compliance with the principle of subsidiarity in accordance with the procedure set out in that Protocol...

Article 10 (1) - The functioning of the Union shall be founded on representative democracy.

Article 10 (2) - Citizens are directly represented at Union level in the European Parliament. Member States are represented in the European Council by their Heads of State or Government and in the Council by their governments, themselves democratically accountable either to their national Parliaments, or to their citizens.

Article 10 (3) - Every citizen shall have the right to participate in the democratic life of the Union. Decisions shall be taken as openly and as closely as possible to the citizen...

**Sept. 12, 2023 - Event in Iceland - Oct. 4, 2023: Philipp Kruse, Sasha Latypova, Katherine Watt, Vibeke Manniche**

*Updated Sept. 16, 2023*

For those who are interested in Catholic subsidiarity principles as applicable to current geopolitical events, a reader recently referred me to the work of Niki Raapana and her daughter, Nordica Friedrich, on communitarian law.

Starting in 1999 and through Raapana's death in 2022, Raapana and Friedrich investigated and reported on the same global consolidation of legal authority, and covert evisceration of national constitutions and civil liberties, that I have been studying and writing about since 2005.

From what I've read so far, Raapana's entry points seem to have been urban redevelopment and policing programs, trade agreements such as NAFTA and CAFTA, followed by Supreme Court rulings on eminent domain, including *Kelo v. City of New London*, and progeny.

My entry point was preemption doctrine as it plays out at the local, state and federal levels (2005-2019), followed by study of international, cross-border power-consolidation mechanisms (WHO International Health Regulations and implementing national laws) through the window opened by the Covid-19 "public health emergency"-predicated power grab.<sup>37</sup>

*Related Bailiwick reporting and analysis:*

- June 7, 2022 - On why and how globalists, allied with communists, are fomenting federalist conflicts in America. They aim to block American Christians and Constitutionals from working together to protect individual human liberty to freely discern and work the will of God.
- Jan. 20, 2023 - Subsidiarity. Political, social and economic organizing principle that stands in opposition to centralized bio-digital totalitarianism
- Sept. 5, 2023 - On Catholic subsidiarity as the counterweight to Satanic secular-materialist centralization of power. And on building up confidence and trust in God's providence, to work for subsidiarity principles in the governance of human societies.

I had heard of communitarianism, but I had not encountered Raapana's work or the term *communitarian law* before yesterday. The Monster works very hard to suppress public understanding of communitarian law and the quietly-implemented legal, social, psychological, financial, and informational mechanisms through which unjust power transfers from hereditary and elected rulers (and the citizen lives and souls for whom those rulers are accountable to Almighty God), to self-appointed, Satanic globalist technocrats, take place.

The globalists' control of search engine results is a powerful tool to suppress such knowledge.

Readers interested in digging into Raapana and Friedrich's work can start at the [Anti-Communitarian League](#) website.

I ended my last chapter with the idea that in the Moral Law somebody or something from beyond the material universe was actually getting at us. And I expect when I reached that point some of you felt a certain annoyance. You may have even felt that I had played a trick on you — that I had been carefully wrapping up to look like philosophy what turns out to be one more “religious jaw.” You may have felt you were ready to listen to me as long as you thought I had anything new to say; but if it turns out to be only religion, well, the world has tried that and you cannot put the clock back. If anyone is feeling that way I should like to say three things to him.

First, as to putting the clock back. Would you think I was joking if I said that you can put a clock back, and that if the clock is wrong, it is often a very sensible thing to do? But I would rather get away from that whole idea of clocks. We all want progress. But progress means getting nearer to the place where you want to be. And if you have taken a wrong turning, then to go forward does not get you any nearer. If you are on the wrong road, progress means doing an about-turn and walking back to the right road; and in that case the man who turns back soonest is the most progressive man...

**Sept. 19, 2023 - On sovereign immunity. Re-post: Dual-use government officials of concern. Related to CHD case Estate of George Watts Jr. v. Lloyd Austin, Secretary of US Department of Defense.**

First posted Jan. 16, 2023: Dual-use government officials of concern.<sup>48</sup>

Sept. 19, 2023 Notes

I'm reading the US Government's Motion to Dismiss *Estate of George Watts Jr. v. Lloyd Austin in his official capacity as Secretary of the US Department of Defense* and the plaintiffs' reply in opposition.

I am not related to the Watts family. I had no direct input into the legal strategies chosen for the *George Watts* case and first learned of the case after it was filed.

I write about cases using publicly-available case documents. I haven't yet written publicly about the *Watts v. Austin* case, because I wanted to wait until the Motion to Dismiss was filed. In some interviews over the summer, I briefly discussed it, and my view that it has some strengths but also some serious weaknesses.

*Estate of Watts v. Austin* was filed May 31, 2023 by Attorney Ray Flores, funded by Children's Health Defense (CHD). The Motion to Dismiss was filed Sept. 1, 2023, and the plaintiff estate filed a reply Sept. 15, 2023.

- 2023.09.01 Watts v. DoD Gov Memo in Support MtD<sup>52</sup>
- 2023.09.15 Watts v DoD Memo in Opposition to MtD<sup>53</sup>

The first defense argued by SecDef Austin's Department of Justice lawyers, is that the US District Court has no jurisdiction, because claims against government officials are barred by sovereign immunity, and

“Plaintiff does not identify any applicable waiver of sovereign immunity but instead argues that sovereign immunity is unconstitutional. Those arguments are unsupported by the text of the Constitution and case law.”

Legal strategies that could be considered — by CHD attorneys for this case and by other attorneys who may file similar cases in the future — include filing an amended complaint identifying defendant Lloyd Austin in his *personal* capacity; adding as co-defendant, also in his personal capacity, Operation Warp Speed Chief Operating Officer, Army General Gustave Perna; and requesting that federal judges nullify the PREP Act in its entirety to the extent that the Department of Justice and Department of Defense hold the position that the PREP Act authorizes sovereign rulers to poison and kill subjects while enjoying the privileges of sovereign immunity.

Reasoning for this approach is outlined below.

The nutshell version: Austin and Perna have engaged in intentional poisoning and mass murder in their personal capacities, because a legitimate sovereign ruler automatically forfeits his sovereignty and reverts to personal or outlaw status the moment he acts against the *true* good of his subjects.

Rulers poison and kill their subjects for purposes other than the welfare of the subjects.

To the extent rulers claim that they poison and kill subjects for the subjects' own good, the rulers are lying.

## Jan. 16, 2023 - Dual-use government officials of concern

I think prosecution of the American Covid-19 war criminals — starting with Robert Kadlec, Alex Azar, Marion Gruber and Denise Hinton and moving on from there, as outlined Oct. 12, 2022<sup>54</sup> — will be more effective if those criminal cases are filed against the perpetrators in their personal capacities, as false impersonators or foreign imposters acting outside the bounds of legitimate government authority, rather than in their official capacities as US government agents acting within the authorized scope of their duties.

- Jan. 10, 2023 - Draft Complaint Intro/Background: John Doe v. Azar, Kadlec, Gruber and Hinton<sup>55</sup> (PDF).

That PDF draft addresses the defendants in both their official and personal capacities. I wrote it in October, before reaching the conclusions I'm writing about now.

\*

The US Government is making war on its own people covertly, through the conversion of the chemical and biological warfare program into the public health emergency medical countermeasures program, and is working in collaboration with globalist institutions and other national governments around the world, to make war on all people.

The central bank globalists running the worldwide program — one main battlefield is currently the World Health Organization<sup>56</sup> — want to kill as many of us as possible, as quickly and with as much plausible deniability as possible. They also want to depose as many national, sovereign governments as possible, as quickly and with as much plausible deniability as possible, in order to install the one-world government, presented as a solution to the civil, political, financial and economic chaos and dysfunctionality they themselves have brought into being.

So legal strategies need to walk a fine line between holding the war criminals to account and also protecting each country's sovereign government institutions, so that the small-but-growing remnants of non-criminal government officials can work with informed popular support to rebuild legitimacy, economic stability and public trust.

\*

Sometimes I get asked to look at legal pleadings people are thinking about filing, or have already filed, and offer my views on them.

As I've said and written repeatedly, I think every legal civil and criminal strategy that people are interested in preparing and filing should be tried.

Last fall I helped set up two self-help websites to support people interested in filing cases:

- Five Small Stones<sup>57</sup> - text-only, pharmaco-military crimes only.
- Five Small Stones<sup>58</sup> - multimedia, pharmaco-military and election crimes.

I find arguments that there is “only one way,” “only two paths,” a “best way,” or ways that should “never” be tried, or some “easy” way to attack the Monster, or some strategy “must” get good results and other strategies that “can never” get good results, to be counterproductive.

There are as many ways to attack the Monster as there are people willing to fight. They are all difficult and strewn with obstacles, and they should all be tried anyway: each person should fight in the way that he or she thinks makes sense and uses the skills and interests that he or she has available to offer to the fight.

For legal strategies in general, I think the simpler the arguments, the better, for both generating public understanding and support, and for engaging prosecutors, judges and legislators.

<sup>57</sup> <https://5smallstones.wordpress.com/>

<sup>58</sup> <https://5smallstones.com/>

In my view, neither judges nor the public care anymore about dueling data analysis experts or the status of efforts to isolate SARS-CoV-2 viruses or prove that PCR tests work or don't work.

They know several things from direct experience:

- Something made people sick in a strange way starting in late 2019 and early 2020.
- Governments and their media propagandists said that nothing but social isolation, economic dependency, testing, masking and vaxxes would solve the problem, and blocked every other possible mitigation, prevention and treatment.
- The claims of governments and media propagandists proved to be false, because people have continued to get sick with weird things even after complying with the recommendations and 'mandates,' and lacking access to the things the governments blocked.
- Since the vaxx rollout, people are sick and dying from blood clots, heart attacks, turbo-cancers, immune system dysregulation and many other horrible things, and birth rates are dropping.
- Governments and media propagandists are pretending that's not happening, and continuing to fund and push the same policies, programs and products.

My work up to this point has been about figuring out how and why the regulatory, consumer safety mechanisms have been blocked, and how and why the constitutional checks and balances have been blocked.

Now that I know, beyond any doubt, that it's because our governments are at war with us, and that their war plans included establishing triggers to quietly and illegitimately, suspend all constitutional and regulatory provisions that would have protected us from the attack, I'm focused on educating more people about that reality, and thinking through legal strategies that can expose and nullify that war footing as being an illegal war that does not comply with just war doctrine,<sup>59</sup> such that acts undertaken in support of it are war crimes, in addition to being grave mortal sins.

For my own contributions to the fight against the Monster, I'm most interested in developing and supporting cases that force government defendants and defense counsel to first, admit that the evidence (the record of their public acts and documents) conclusively shows they've launched a covert war with their people, which is becoming widely seen and understood.

The government attorneys would then be compelled to choose between two defenses:

1. The war on the world is legal and the use of bioweapons to carry out official, authorized duties and orders to maim and kill billions of people, is justified and endorsed by the US government as an institution.
2. The war is illegal, such that the official government acts undertaken by named defendants, to conduct the war, have been done without proper authority, by rogue actors, who can and will be removed from power and tried for their war crimes.

To the extent the Department of Justice responded to a criminal prosecution of Kadlec, Azar, Gruber and Hinton by using the second argument, the war criminals would be subject to prosecution in their personal capacity, without recourse to sovereign, legislative, administrative or other immunities.

They would be cut loose from the government, and legally construed as people who committed the war crimes outside their official capacities, while impersonating federal officials, or while serving as agents of foreign invaders or occupiers.

The advantage offered by cutting the war criminals loose, is that it would leave the core governing institutions (legislatures, courts and executives) and the US Constitution intact.

Badly damaged. Threadbare.

But intact, and positioned to begin the long process of rebuilding and reweaving legitimacy and public trust from a solid foundation.

<sup>59</sup> [https://en.wikipedia.org/wiki/Just\\_war\\_theory#Saint\\_Thomas\\_Aquinas](https://en.wikipedia.org/wiki/Just_war_theory#Saint_Thomas_Aquinas)

Some of my thinking about this comes from the many carve-outs built into criminal and civil statutes, to exempt senior executive service (SES) officials, cabinet secretaries, Congress members, judges, military officials and state and local government agents from prosecution for acts that are criminal when committed by anyone else.

Examples of laws containing carve-out provisions include the False Claims Act (31 US 3729); Racketeer Influenced and Corrupt Organizations (RICO) Act (18 USC 1961); federal laws prohibiting use of biological weapons of mass destruction (18 USC 175); prohibiting use of chemical weapons of mass destruction (18 USC 229); prohibiting international and domestic terrorism (18 USC 2331); prohibiting genocide (18 USC 1091); prohibiting torture (18 USC 2340A); and prohibiting war crimes (18 USC 2441).

A couple of months ago, I read a book chapter by Jed S. Rakoff, *Fundamentals of RICO, (RICO - Civil Law and Strategy*,<sup>60</sup> 1999), in which Rakoff reported:

Consistent with the Supreme Court's increasing receptivity to claims of sovereign immunity by state governments, several circuit courts have held that state governmental entities cannot be sued under RICO. One approach to the issue of sovereign immunity, which is best exemplified by decisions from the Ninth Circuit, has concluded that government entities cannot violate RICO because they are **incapable of forming the "malicious intent" needed to commit predicate acts.**

Until very recently, I took those carve-outs at face value. I construed them as self-serving methods whereby powerful people protect themselves from criminal prosecution and civil liability.

They serve that function well, for as long as the People, including honorable, courageous legislators, judges and governors construe them as applicable.

And yes, I do believe that there are honorable, courageous government officials walking among us. There aren't many. But there are enough for now, and more joining the battle daily.

I now think these carve-outs have a far deeper and nobler purpose.

They represent a suppressed but useful scalpel with which honorable government officials can excise the cancer from the body politic.

The "government" cannot form malicious intent, because the only legitimate, valid basis for the existence and continuation of any government is the protection and prosperity of the people living on the soil within its sovereign territory.

All intentions and acts formed or committed for purposes other than the protection and prosperity of the people, are by definition no longer government intentions and acts.

Individual human beings occupying government positions certainly can form malicious intent.

They often do, and demonstrably have, to unfathomable depths that have become visible since January 2020.

The deeper and nobler function of the carve-outs in the laws, imply that, starting with the moment in time and place that anyone elected or appointed to office or employed by the government, engages in criminal acts and conspiracies to commit criminal acts, or induce others to participate in crimes (knowingly or unknowingly), he silently and automatically forfeits classification as a government official and removes him or herself from the protective shield that Almighty God has placed around legitimate, valid sovereigns who serve the legitimate, valid purpose of protecting and defending the lives and properties of the people entrusted to their care and jurisdiction.

In other words, a government at war with its people is not a valid, legitimate government.

It's an invalid, imposter government.

---

<sup>60</sup> [https://www.lawcatalog.com/media/productattach/r/i/rico\\_chapter\\_1-r47.pdf](https://www.lawcatalog.com/media/productattach/r/i/rico_chapter_1-r47.pdf)

By logical extension, any individual government official demonstrably engaged in war on the people is not part of a valid, legitimate government.

He's an invalid, imposter official.

He's a rogue, an outlaw, operating beyond the scope of the authority given to valid governments through legitimate social compacts and covenants formed (in various ways) among the three parties: God, Sovereign Government and People.

To sum up, if an illegal, immoral war is being waged on the people, (it is) and if it's legally and morally impossible for a VALID government to do such things, in the course of VALID official duties (it is), then by legal and moral definition, the people doing these things are not of, from or inside the US Government.

They are outside of the government, and outside of the law.

They are outlaws occupying government offices.

The legitimate, valid, authorized government still includes anyone in executive, legislative, judicial and military positions who either resisted going along with the program from the start, such as by defying unlawful orders, and also includes men and women who cooperated at the start when under the false impression of legitimacy, but have since realized an illegal war is underway, have stopped cooperating and have started resisting.

Those conducting the war have already abdicated from office in substance, but not in form.

They are filling real time and space — the physical offices in Washington DC and other US government sites, as of ~~Jan. 16, 2023~~ Sept. 19, 2023.

But they are not fulfilling proper functions, and are in fact violating them.

**Sept. 20, 2023 - On how globalists covertly, gradually insert communitarian law at the nation-state level to supersede constitutional law and sovereignty.**

*Giuliano Amato, former Italian Prime Minister and Vice-President of EU Constitutional Convention, quoted in 2020: Our Common Destiny.*<sup>61</sup>

2020: *Our Common Destiny*, 2012 edition, by Niki Raapana and Nordica Friedrich, at p. 40 (emphasis added):

“In 2003, Italian Prime Minister Giuliano Amato, later Vice-President of the European Union Constitutional Convention,<sup>62</sup> told Italian newspaper *La Stampa* how Communitarian Law is introduced:

"One must act 'as if' in Europe: as if one wanted only very few things, in order to obtain a great deal. As if nations were to remain sovereign, in order to convince them to **surrender their sovereignty**.

The [European] Commission in Brussels, for example, must act as if it were a technical organism, in order to operate like a government...and so on, **camouflaging** and toning down.

**The sovereignty lost at a national level does not pass to any new subject. It is entrusted to a faceless entity: NATO, the UN and eventually the EU.**

The Union is the vanguard of this changing world. It indicates a future of Princes without sovereignty.

**The new entity is faceless and those who are in command can neither be pinned down or elected...**

That is the way Europe was made too: by creating communitarian organisms without giving the organisms presided over by national governments the impression that they were being subjected to a higher power.

That is how the Court of Justice [of the European Union]<sup>63</sup> as a supra-national organ was born.

It was a sort of unseen atom bomb, which [French foreign minister Robert] Schuman and [French National Planning Board Commissioner Jean] Monnet slipped into the negotiations on [European] Coal and Steel Community.<sup>64</sup>

That was what the [European Coal and Steel Community] itself was: a random mixture of national egotisms which became communitarian.

I don't think it is a good idea to replace this slow and effective method — which **keeps national States free from anxiety while they are being stripped of power** — with great institutional leaps...

Therefore **I prefer to go slowly, to crumble pieces of sovereignty up little by little**, avoiding brusque transitions from national to federal power.

That is the way I think we will have to build Europe's common policies."

European Union Communitarian Law was the model legislation for the Central American Free Trade Agreement (CAFTA). Congress adopted CAFTA in 2005, placing the American people squarely in a communitarian legal agreement. Our integration with Canada and Mexico has been kept very hush-hush.

**Sept. 22, 2023 - UN-WHO overthrow of sovereignty: threat of imminent supranational law-based invasion, or almost-completed supranational law-based occupation?**

Is the United Nations-World Health Organization repression of constitutions and national sovereignty, and overthrow of nation-states, by means of triggering provisions in adopted international and federal legal instruments, an imminent threat?

Or have Satanic technocrats serving the UN-WHO Monster-machine already been occupying and openly ruling over nation-states since at least January 2020, by means of triggering provisions in adopted international and federal legal instruments?

Is there a meaningful difference between repelling a geopolitical-legal attack attempting to cross into a country from outside national borders, or expelling a geopolitical-legal occupation that has already been established inside national borders?

\*

Premise 1. There is a difference. The occupation scenario better fits the observable facts than the imminent attack scenario. UN-WHO occupation mechanisms were triggered January 2020, and the occupation is almost fully operational at present.

Premise 2. There are no true global natural, non-military threats or emergencies such as global pandemics, climate change, overpopulation and resource scarcity. There are only localized threats (disease outbreaks, hurricanes, earthquakes, droughts, currency collapses) and coordinated global, man-made military attacks that can and have been presented (through orchestrated, man-made, global propaganda and repression of authentic fact-finding and deliberative procedures) to make lots of people falsely believe local disasters are global, and falsely believe planned, executed acts of war are natural events.

Premise 3 - The false cross-border, global threat paradigm is the core mechanism for the establishment of worldwide totalitarianism, because legal instruments centralizing power have been manufactured to (a) become operational upon unilateral declaration (by Satanic technocrats) of cross-border threats, and (b) block all previously-applicable, public, adversarial claim verification mechanisms such as legislative deliberation, legislative nullification or ratification and judicial review.

\*

Public understanding that there are no natural global threats and emergencies or man-made acts of war capable of justifying globally centralized moral, legal or material responses

can lead to

public understanding that the Monster's whole story is a series of very large lies, and thus there are no legitimate triggers to suspend constitutions worldwide, including federalism (in the US) and subsidiarity (in Europe),

which can lead to

public understanding that there is no legal, moral or material basis for global concentration of power, which can lead to

more public pressure on national, state and local lawmakers and judges to add their own acts of defiance to the millions of defiant acts committed every day by ordinary people ignoring the stupid demands of the Monster.

\*

The Monster desperately wants the world's people to think the Monster's capture of global power is needed, wanted and legit.<sup>65</sup>

The Monster's capture of global power is not needed, not wanted, and not legit.

\*

When evidence accumulates that public health powers have already been quietly and gradually transferred — mostly since 1944<sup>66</sup> — from elected and hereditary rulers of nation-states (and their political subdivisions) and from the subjects or peoples of each country, to the United Nations World Health Organization, without public knowledge or deliberation,

using embedded legal mechanisms that suspend subsidiarity (EU); federalism (US); and all Constitutional and other limits on government abuse of power, under specific triggering conditions (declared cross-border threats including “public health emergencies”)

to establish and maintain global totalitarianism in the form of medical-military dictatorships,

and the legally-required natural cross-border threats are lies, describing events that do not and cannot exist in reality,

but local threats can be made to appear global, and man-made acts of war can be made to appear to be natural disasters,

then public health officials and other executive and administrative officials worldwide have demonstrably lied to legislators, judges, prosecutors and subject populations to trigger (a) repression of historic deliberative and judicial fact-finding forums and procedures; (b) suspensions and overrides of legitimate ruling sovereignty; and (c) limits on government abuse of power,

and those same executive and administrative officials worldwide have demonstrated the triggering mechanisms and information control systems (to amplify the enabling lies and suppress fact-finding and truth) to be functional.

What can people, and national and state legislatures and courts do in response?

- For individuals and families worldwide: Pray the Rosary and go to Mass. #PraytheRosary #GoToMass #MassOfTheAges.<sup>67</sup>
- For individuals and families worldwide: Defy and thereby sabotage nonsensical, immoral, unlawful and materially harmful instructions and demands made by the occupiers: to be afraid, to mask, to test, to isolate, to shun, to inject, to enter more deeply into the digital-financial-medical surveillance and control grid . #DoNotComply
- For individuals and families worldwide: Understand and spread the understanding that the fact that the core premises are lies, nullifies and voids the moral, legal and material bases for law-triggered automatic transfers of power embedded in anti-laws as adopted and enforced.
- For US Congress and other federal and state legislatures and courts worldwide: Re-assert subsidiarity, federalism and constitutional rule of law. Nullify and repeal unjust federal, state and local statutes and regulations. #RepealPREPAct.<sup>68</sup> *See also* WeThePeople50.<sup>69</sup>

...One of the things that surprised me when I first read the New Testament seriously was that it talked so much about a Dark Power in the universe — a mighty evil spirit who was held to be the Power behind death and disease, and sin.

The difference is that Christianity thinks this Dark Power was created by God, and was good when he was created, and went wrong. Christianity agrees with Dualism that this universe is at war. But it does not think this is a war between independent powers. It thinks it is a civil war, a rebellion, and that **we are living in a part of the universe occupied by the rebel.**

Enemy-occupied territory — that is what this world is. **Christianity is the story of how the rightful king has landed, you might say landed in disguise, and is calling us all to take part in a great campaign of sabotage.**

When you go to church, you are really listening-in to the secret wireless from our friends: that is why the enemy is so anxious to prevent us from going. He does it by playing on our conceit and laziness and intellectual snobbery...

**Sept. 24, 2023 - 51 Congress members co-sponsoring Rep. Andy Biggs HR-79, WHO Withdrawal Act. To thank them for standing up, contact their offices.**

As James Roguski reported recently:<sup>71</sup>

As of September 14, 2023, 50+ members of the House of Representatives have signed on as co-sponsors of the WHO Withdrawal Act (H.R. 79)...

However, not even one senator has shown the courage to simply copy H.R. 79 and submit it as companion legislation in the Senate.

Text of the bill and list of the 51 co-sponsors is below.

To thank these men and women for their clear-eyed leadership and encourage them to keep fighting and to fight harder, louder and more visibly, please contact their offices.

Text:<sup>72</sup>

H. R. 79 - To direct the President to withdraw the United States from the Constitution of the World Health Organization, and for other purposes.

In the House of Representatives, January 9, 2023, Mr. Biggs (for himself, Mr. Perry, Mrs. Miller of Illinois, Mr. Massie, and Mr. Rosendale) introduced the following bill; which was referred to the Committee on Foreign Affairs.

A BILL To direct the President to withdraw the United States from the Constitution of the World Health Organization, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “WHO Withdrawal Act”.

SEC. 2. WITHDRAWAL OF UNITED STATES FROM THE CONSTITUTION OF THE WORLD HEALTH ORGANIZATION; PROHIBITION ON USE OF FUNDS.

Effective on the date of the enactment of this Act—

(1) the President shall withdraw the United States from the Constitution of the World Health Organization (62 Stat. 2679; 14 U.N.T.S 186); and

(2) no funds available to any Federal department or agency may be used to provide for the participation of the United States in the World Health Organization or any successor organization.

SEC. 3. REPEAL OF THE ACT OF JUNE 14, 1948.

The Act of June 14, 1948 (Public Law 806–43; 62 Stat. 441; 22 U.S.C. 290 et seq.), providing for membership and participation by the United States in the World Health Organization and authorizing an appropriation therefor, is repealed.

I would like to see Christine Anderson introduce some legislation in the European Parliament to repeal the regulations, decisions, directives and other technical mechanisms through which the European Union is imposing the cross-border health-threat-predicated tyranny on the member-states and on the subjects who live in the member-states, and to introduce a bill to withdraw her country (Germany) from the EU.

Starting with these:

I've been reading more on European Union law and lawmaking procedures in recent weeks, ahead of the Oct. 4, 2023 event in Reykjavik, Iceland.<sup>93</sup>

My basic understanding from that reading, is that Christine Anderson and the other Members of the European Parliament (MEP) have no authority to draft and introduce new laws or bills to repeal existing laws, under the terms of the many treaties that created and amended the legal relationships between the European Commission, European Council, Council of the European Union, European Parliament (four of the seven institutions of the European Union), the National Parliaments of member-states and individual men, women and children who live in EU member-states.

This lines up with what former Italian Prime Minister Giuliano Amato stated in 2003<sup>94</sup> as he and other Satanic technocrats were working on a European Constitution:

**“The [European] Commission in Brussels, for example, must act as if it were a technical organism, in order to operate like a government...and so on, camouflaging and toning down. The sovereignty lost at a national level does not pass to any new subject. It is entrusted to a faceless entity: NATO, the UN and eventually the EU...”**

European politicians truly concerned about helping themselves and their constituents dismantle the public health-military kill box constructed by the Satanic technocrats would be wise to

1. immediately and publicly resign from the European Parliament in a coordinated way, clearly and loudly stating the reason for their moral and physical abandonment of EU institutions is their recent discovery that they have no actual lawmaking authority with which to protect the lives and property of their people against the predation of murderous, plundering Satanic technocrats; and
2. immediately return to their home countries and work with their national parliaments to a) withdraw from all of the treaties currently governing the operation of the European Union (placing national parliaments and populations under the direct control of Satanic technocrats working primarily through the European Commission and its 32,000 civil servants); b) dismantle the European Union; and c) resume ruling authority at the nation-state, subdivision and subject levels.

There is no mechanism by which MEPs can change the EU system from within.

They can only publicly invoke a massive crisis of legitimacy to reveal the Monster’s core lies to more people.

...It forces readers to skip over the single most important disputable issue: What is the nature of the emergency confronting human beings since January 2020, and therefore also confronting the courts through which we traditionally try to resolve disputes without resorting to overt violence?

Is the emergency the global outbreak of a deadly, novel, unprecedented communicable disease, as thousands of lawyers and judges have stated as indisputable fact, in thousands of pleadings and opinions?

**Or is the emergency the global outbreak of a massive, orchestrated fraud, combined with covert violence (bioterrorism and medical murder), designed to bypass the Constitutional crisis set in motion by Congress and US Presidents through hundreds of tyrannical legislative and executive acts committed over the past half-century?**

Is it a massive, orchestrated fraud designed to clear away every conceivable legal, social and political obstacle in the path to non-consensual, centralized, public health-predicated global surveillance, control and governance?

With every passing day, the answer becomes more clear.

It's a massive, orchestrated fraud.

It all goes back, again and again, to the legal mechanisms.

The legal codes, regulations, executive orders, declarations and proclamations are the primary crime scenes, where the criminals rampaged long before the death machine engines engaged in hospitals, nursing homes, pharmacies and pop-up vaxx clinics.

The visible law-makers and shadowy law-writers are the master criminals, long before the public health experts, doctors, nurses and pharmaceutical manufacturers began to play their parts.

And the pseudo-laws have been written to pre-cover up the crimes, pre-paralyze the courts, suppress the legal principles, and preempt and hide the resulting Constitutional crisis triggered by those laws.

**The criminals desperately need to bypass that Constitutional crisis, to take us all quietly to the full totalitarian system that lies beyond it.**

It's a massive, orchestrated fraud.

That's the knowledge that the would-be global tyrants must keep from the Normals at all costs, and operate every lever of power at their disposal to keep hidden.

**Sept. 28, 2023 - On urging county, municipal and regional law enforcement and health officials to defy orders to capture and kill people under public health emergency pretexts.**

*Revised/edited/reorganized version of an email alert recently distributed by Attorney Todd Callender*

Bottom Line Up Front (BLUF): Declarations of public health emergencies operate under, over and outside the law to suspend human rights, constitutional rights and create pretexts for governmental and private actors to commit bodily trespass, false arrest, false imprisonment, assault, battery, torture, kidnapping, and homicide without risk of criminal prosecution or civil liability.

Without local law enforcement, public health and emergency management officials who willingly carry out HHS-DoD-WHO-UN instructions to control and kill, the criminals running these programs from the international and federal level can't operate their control-and-kill campaigns.

Under the Project Bioshield Act, PREP Act and related Congressional legislation (codified mostly at 21 USC 360bbb, 42 USC 247d and related provisions), public health emergency (PHE) declarations as issued by the HHS Secretary at his or her sole, discretion:

1. consolidate federal government control and extrajudicial killing authority into the HHS Secretary's hands; and
2. authorize delegation of that ruling and killing authority to state, county, municipal and regional officials and private contractors to commit acts of false arrest, false imprisonment, assault, battery, kidnapping, torture and homicide without personal risk of criminal prosecution or civil liability. [42 USC 247d-6d(c)(4)]

As the laws are written, Congress cannot restrain HHS Secretary killing authority [42 USC 247d-6d(b)(9)] unless and until Congress repeals the Project Bioshield Act, PREP Act and all related public health emergency statutes.

Several 'public health emergency' determinations and declarations are currently in effect in the United States, including declarations covering countermeasure programs and products for coronavirus, influenza, marburgvirus and more.

- HHS-ASPR Public Health Emergency Determinations to Support an Emergency Use Authorization<sup>107</sup>
- Aug. 28, 2023 - March 15, 2023 and May 11, 2023 HHS Dictator-Secretary determinations and declarations and related reporting and analysis.<sup>108</sup>

Now is a good time to educate the local people (nurses, police officers, sheriffs, EMTs, health and emergency management officials) about what is happening; about how their day-to-day local work carries out the federal HHS/DoD/WHO/UN control-and-kill orders; and about how important it is that they act to stop the program, **by refusing to carry out the orders.**

It is likely that the unindicted war criminals who orchestrated the Covid-19 PHE-predicated attack will attempt to build on their success during forthcoming, forecast events which will present coronavirus, influenza, RSV and hemorrhagic fever outbreaks — or data-fraud- and media panic-porn-driven simulations of such outbreaks — as new or extended national emergencies justifying even more obvious imposition of martial law implemented by municipal, regional and county public health officers, law enforcement officers, and private contractors.

For American Bailiwick readers interested in working at the county level (as of 2020, there were 3,100+ counties in the US), municipal level, and regional level (if you happen to live in an area where several municipalities have been quasi-merged under a regional government-like organization), below are lists of governmental and quasi-governmental/administrative/regulatory agencies and individuals to educate and embolden to increase the odds that they will refuse to take up the licenses to kill proffered by HHS and WHO.

**Oct. 9, 2023 - Prayer request: that God provide for the spiritual and material needs of those preparing to file cases confronting biochemical warfare-enabling treaties and statutes.**

**Also link to video of Iceland conference, and slide deck.**

## Prayer request

I encourage interested Bailiwick readers to pray that Almighty God will — in the mysterious ways in which He works — provide for the spiritual and material needs of lawyers and litigants around the world who are preparing cases that will directly challenge the legal foundations of ongoing State-sponsored military-medical warfare programs, and draw the moral illegitimacy of those legal foundations further into public understanding.

International law foundations that currently authorize governments to torture and kill people with legal impunity (by blocking civil and criminal prosecution) include treaties such as the 1946 treaty establishing the World Health Organization, and 2005 amendments to the WHO International Health Regulations that entered into force in 2007.

National governments around the world have adopted domestic laws to implement the WHO-IHR. The coordinated global Covid-19 programs rendered those domestic laws, and the triggering WHO-IHR provisions, more visible.

In the United States, implementing statutes include 21 USC 360bbb ("expanded access to unapproved therapies and diagnostics," also known as the Emergency Use Authorization program) and 42 USC 247d, "public health emergencies."

Key pillars of these two American legal structures were enacted by members of Congress and signed into law by then-President George W. Bush: Project Bioshield Act in 2004 and Public Readiness and Emergency Preparedness (PREP) Act in 2005 (Division C: last 14 pages of DoD Emergency Supplemental Appropriations bill post-Hurricane Katrina). Both programs have been expanded and developed further through amendments adopted since 2005.

The men and women preparing to confront and discredit governments worldwide, by bringing cases directly challenging these illegitimate treaties and statutes, need spiritual and material support.

On the spiritual side, they especially need prudence and fortitude. On the material side, they need money, time and ways to communicate with each other without diabolical interference.

I am emphatically **not** asking Bailiwick readers to donate money to any specific organizations, law firms or campaigns.

I'm asking Bailiwick readers to pray that God provide for the needs of these men and women, as and when they each need those things to carry out their work, through whatever means He chooses to use as instruments for those purposes, to the extent that their work accords with His will.

If you are Catholic, or on the path to becoming Catholic, I encourage you to pray Rosaries to the Blessed Virgin Mary for these intentions, and novenas seeking the intercession of saints to whom you have particular devotion.

Christ Giving the Keys to St. Peter. Painting by Guido Reni.

Below is one possible wording of the intention:

Intention: That Almighty God provide for the spiritual and material needs of lawyers around the world who are preparing cases to directly challenge the legal foundations of global, State-sponsored biochemical warfare programs.

The organizers, the other presenters, and all the Icelanders I met, were extremely kind, thoughtful and courageous, and I'm very grateful that I was given the opportunity to meet them and to work with them for this event.

I think the organizers are arranging for edited versions of each presentation as individual videos, to include embedded slide decks. When I have links to those presentation videos, I'll post them here at Bailiwick.

## Oct. 11, 2023 - PDF compilations

PDF compilations of Bailiwick News posts are linked below, for readers who want to save the material offline and/or print.

The PDF files compile supporting material and commentary on this synopsis from a January 2023 abstract for an academic paper:<sup>129</sup>

...Through gradual, covert statutory reclassification and program transfers, reinforced through Presidential Executive Orders and related executive branch declarations, and implemented through hundreds of regulatory amendments, the US Government's Chemical and Biological Warfare Program originally housed in the Department of Defense (DOD), became the Public Health Emergency [PHE]-Emergency Use Authorization [EUA]-Medical Countermeasures program housed in the Department of Health and Human Services (HHS).

The bioterrorism program is now jointly operated by DOD, HHS, Department of Homeland Security, Department of State, most other US federal agencies and their subordinate departments, divisions, offices, authorities, enterprises, committees, advisory boards and employees, in collaboration with the World Health Organization, the Bill and Melinda Gates Foundation, and other public, private and public-private hybrid institutions around the world...

This Dec. 2022 nutshell version<sup>130</sup> is also short and to the point:

A. US Government since 1969 has incrementally transferred/hidden the joint DOD+HHS Chemical and Biological Warfare Program (50 USC 32) in the Public Health Service Act (42 USC 201) and Food Drug and Cosmetics Act (21 USC 9), such that federally-funded, federally-directed public health programs and products are actually bioterrorism programs and biological and chemical weapon attacks.

B. The government's purpose is to commit mass murder/depopulate the world, without public knowledge and without legal consequence, and enslave survivors for wealth and power centralization through digitized 'vaccine' passports and digital currencies, without public knowledge and without public resistance.

C. Things that used to be prosecutable crimes (such as murder, assault, battery, false imprisonment, child abuse, elder abuse, theft, extortion, fraud) and civil rights violations have been rendered pseudo-legal through Presidential executive orders, Cabinet declarations, hundreds of or thousands of pages of administrative agency regulations published through the Federal Register, as a form of executive branch legislation, and changes to the United States Code...

## **Oct. 12, 2023 - On the moral agency of living human lawmakers.**

A reader who is interested in supporting legal cases that challenge Covid-era government acts as fraud-based recently emailed, asking if I could help “identify the core elements of the fraud, and who has committed it, with references...”

My reply is below.

By way of analogy, one way to think about the relationships between globalist communitarian law,<sup>139</sup> national constitutions and criminal codes, and declared “public health emergencies,” involves trapdoors,<sup>140</sup> fly-rails<sup>141</sup> and other elements of theatrical staging.

The lever that sets the trapdoor mechanism in motion is the unilateral (evidence-not-required, evidentiary-review-not-permitted) declaration, by the WHO Director-General, that a “public health emergency of international concern” (PHEIC) exists.

When the WHO Director-General pulls the lever, the first gear in the contraption engages: national health officials (also unilaterally and without evidence or evidentiary review) declare a national “public health emergency” (PHE) in each WHO member state, in compliance with the terms of the WHO International Health Regulations, which are construed as a binding international legal instrument or treaty.

At that moment, the constitutions and criminal codes that had formed the foundation for the rule of law in each country, fall through the trap door into the basement to temporary irrelevance, and the door slams shut above them. At the same time, the communitarian law superstructure is dropped onto the stage from the overhead fly-system.

\*

### On the moral agency of living human lawmakers (reply to a reader request)

...I don't think that my work will be useful for your project, because one of my core findings is that once the global communitarian law superstructure has been triggered (by the WHO-PHEIC and domestic PHE declarations), and nullifies national constitutional and criminal law under the terms of the treaties, the truth or falsity of statements made by acting/imposter government officials is moot.

Under the communitarian law system, there can be no fraud, because there is no legally-discernible, legally-relevant truth. There's only the “common good” as unilaterally defined and declared by the dictators working within the self-referential communitarian law system.

And under the communitarian law system, there are no potential individual human plaintiffs with rights to truthful information; there are only depersonalized military targets in a global war zone, being attacked by mercenaries working for the globalist dictators.

This is why I focus on the need for current individual human lawmakers to revoke the moral agency they have, in recent decades, misappropriated by loaning it out to the globalists, and align their own moral agency and lawmaking acts with divine law and natural law, by acting to withdraw countries from the enabling treaties, and to repeal, nullify or block the enabling statutes within each country.

Litigation can help, in my view, only and most powerfully by drawing the hidden aspects of the communitarian law takeover into more open public awareness.

The only reason those approaches (treaty withdrawal + statute repeal + litigation-triggered disclosures of communitarian law overrides of constitutional and criminal law) can be effective, is because the Monster wants to be perceived as legitimate, not as criminal.

---

<sup>139</sup> <https://newswithviews.com/Raapana/niki.htm>

<sup>140</sup> <https://en.wikipedia.org/wiki/Trapdoor>

<sup>141</sup> [https://en.wikipedia.org/wiki/Fly\\_system](https://en.wikipedia.org/wiki/Fly_system)

That's why the treaties and statutes have been written and passed, by the legislatures and executives in each country, and why the federal courts in each country refuse to allow constitutional challenges, and why the federal prosecutors in each country refuse to take up criminal prosecutions.

The acts of national lawmakers and executives provide the veneer of legitimacy that the globalists want but cannot manufacture for themselves out of nothing.

The national lawmakers retain the power to repeal those laws by virtue of the same actual legitimacy the lawmakers possess and in which the globalist imposters are only clothing themselves temporarily.

Even more importantly, lawmakers who expose the duress under which the illegitimate treaties and statutes were originally adopted, and are regularly amended and expanded, also expose the moral and legal basis for nullification of those legal instruments, because duress invalidates the moral dimension of acts of the will, and the free-ness of acts of the will is the only thing that makes them morally sound.

The refusals and immobility and silence of the courts and prosecutors provide another layer of legitimacy that the globalists want but cannot manufacture for themselves out of nothing.

And those refusals and silences are also an implicit admission — by the living judges, misappropriating their moral agency — that the acts of the globalist imposters who have “penetrated ze cabinets”<sup>142</sup> cannot pass constitutional muster and are crimes under criminal codes.

The globalist killers don't want to openly attack and kill people.

They want to deceive people into killing themselves and killing each other. They want people to think that what they're doing is caring for themselves and taking care of each other.

The globalists want to stay hidden, and they want the mechanisms of deceit that they've built to also stay hidden.

**Oct. 16, 2023 - On the materiality and immateriality of fraud and of government knowledge of fraud for legal challenges to US government Covid policies, programs and product use.**

Notes:

This post is an unedited, cut-and-paste of an email exchange that happened today. It doesn't provide background, or link to more than a couple of related Bailiwick posts and case documents for Jackson v. Pfizer,<sup>143</sup> Bridges v. Houston Methodist Hospital,<sup>144</sup> other Covid-era federal cases and my work developing responsive legal strategies (i.e. "dual-use government officials of concern"<sup>145</sup> strategies) due to my decision to not spend time today tracking down and embedding more links and contextualizing passages. As a result, this post is mostly useful for readers who already have a handle on key Covid litigation, prior Bailiwick coverage and general legal strategy principles.

\*

The email thread started with a reader sending me a link to this case,<sup>146</sup> [Roberts v. Shriner, Inslee] filed Oct. 13, 2023, noting "challenges constitutionality of PREP. Maybe interesting."

*I wrote back:*

One of the patterns I'm noticing is how much the post-Bridges, post-Jackson cases are mostly variations on the same basic argument: that there was/is a legal obligation (contractual, statutory, constitutional, and/or regulatory) on some party (hospital/employer, US gov, state gov, manufacturer) to perform a duty to provide truthful information to a counter party (product purchaser, injection recipient, employee), that the party didn't perform, giving rise to the injured parties claims.

And how clearly the Texas federal judges in Bridges and Jackson indicated that there were/are no such obligations or duties to perform under the PHE/EUA/OTA conditions, giving judicial weight to the arguments already in the HHS and DOJ legal opinions about the legal force of the statutes, regulations and contracts.

Lawyers filing cases post-Bridges, post-Jackson don't want to or can't process the information that the judges have provided, and therefore can't/don't address it in their subsequent cases.

*Reader replied:*

Is there some angle to sue the Gov (Operation Warp Speed? DOD? BARDA?) for improper use of PHE/EUA/OTA resulting in poisonous substances delivered, because there was no obligation to provide truthful information about the product per Jackson, Bridges?

*My reply*

I think that would be related to the imposter/occupier/treason approaches, but modifying it somewhat.

The argument I want the lawyers to make is that the laws are written in such a way that the only possible use of the laws is to cover up production and use of illegal biochemical weapons, by camouflaging them from all observers by calling them 'vaccines' and other medicinal products.

The elimination of the crime of fraud, through the laws, is an essential part of the program.

This is the argument: "These laws are illegitimate and used properly but for illegitimate purposes (killing people) in this case."

The government and pharma position is: "These laws are legitimate and used properly for legitimate purposes (managing an emergency/pandemic)."

<sup>146</sup> <https://covidpenalty.com/wp-content/uploads/2023/10/Complaint-Filed.pdf>

The “improper use” argument you outline would be an intermediate position between those two ends of the spectrum, to argue that the laws are written to authorize legitimate government functions, but in this specific instance, the laws were misused and misapplied.

But I think that runs into the same “actual behavior” problem that Jackson’s case brought to light.

Truthful information was in fact brought to the attention of the government officials (by Brook Jackson), but their access to truthful information didn’t change their “actual behavior.”

Judge Truncale found that fact extremely persuasive to make the point that the information Brook provided, even assuming its’ truth, was “not material.” the program is proceeding exactly as Congress, Presidents and federal agencies intended and therefore should not be stopped.

This is related to his contortions around his refusal to “take judicial notice” of Brook’s notification of DoD in Dec. 2020 (FN 20 at p. 33 of his order), but those are contortions; he basically accepted as true the fact that FDA and DoD had access to the information Brook provided them, but concluded that because their knowledge didn’t change their actual behavior, the information was immaterial to their decisions and programs.

His discussion of these issues is at p. 33 and 40 of the March 31, 2023 order:

- March 31, 2023 - Judge Truncale Order Dismissing Jackson v. Pfizer.<sup>147</sup>

His footnote contains another interesting sentence: “while these documents could potentially be introduced through a motion for summary judgment or at trial they are not properly before the Court at this time.”

That’s garbage, because Pfizer’s own Motion to Dismiss was an excellent pre-trial opportunity for him to consider the documents.

But Brook Jackson’s lawyers could have filed a motion for summary judgment (Federal Rule of Civil Procedure 56) saying that — assuming all of her claims are true and that it’s an undisputed fact that she notified FDA and DoD of the problems — she’s entitled to a decision in her favor.

This is related to but not the same as what I was trying to get them to move toward in Feb. 2023 as they were prepping to respond to the Motion to Dismiss and I suggested that they file a request under Federal Rules of Evidence 201, to get the unconstitutionality and criminality of the laws and regulations and contracts themselves in front of the judge.

It’s probable that the judges would rule the same way: that even though FDA and DoD had knowledge of the clinical trial corruption and toxicity of the products, they continued buying and deploying the products anyway, such that their “actual behavior” renders the corruption and toxicity immaterial.

But summary judgment motions would be a way to make the basic parts of the crime more visible to more people.

Really it’s not that fraud was immaterial to the government’s actions.

It’s that fraud was so material — so central — to the government’s actions (Pfizer, FDA and DoD delivered the fraud as ordered,<sup>148</sup> without which the program couldn’t go on), that knowledge of the fraud delivered to the government by an outsider (Brook Jackson) was immaterial to the government’s actions because it was knowledge they had had since long before use of the programs started.

**Oct 18, 2023 - There is never going to be another "deadly global pandemic." There have not been any in the past. The Monster has only devised means to produce the illusion of deadly global pandemics. And that's all he will ever be able to do.**

*Notes on the 2017 addition of "public health emergency" definitions to 42 CFR 70.1.*

Incessant prattling of lobbyists for State-sponsored bioterrorism (code name "biodefense") notwithstanding, there hasn't ever been a deadly global pandemic, or a pathogen with the potential to circulate around the whole world and kill millions or billions of people.

So there can't be another one, or a next one, or any other future one for which the lessons of Covid must be learned; new treaties and laws must be drafted, signed and enforced; new surveillance and control programs developed; and billions of preparatory dollars spent.

There was a first theatrical production of the illusion of a deadly global pandemic: the 1918 Spanish flu.

And now there has been a second theatrical production of the illusion of a deadly global pandemic: Covid-19. There are going to be more attempts to produce the same illusion under different titles; the producers routinely announce and demand funding for their road shows.

Human men and women are the audience.

Individual human minds are the private theaters into which the shows are projected.

\*

I'm not going to go into a lot of detail on the microbiology, immunology, epidemiology and actuarial evidence that supports the proposition that there has never been a deadly global pandemic, and there will never be one.

The short version is that — once the legal definitions, laws, governing institutions and methods of information distribution are set up properly — a very realistic impression of a deadly global pandemic can be formed in the minds of individual human beings, by combining the legal and informational scenery with several props:

1. intentional, localized dispersal of synthetic, weaponized toxins (aerosols, food additives, medications, and 'vaccines')
2. background circulating vectors that contribute to the common human experience of mild, short-duration illnesses known as colds and flus.
3. social isolation policies
4. masking and physical distancing customs
5. mass false-positive-generating diagnostic testing programs

Other writers are far better equipped than I am to explain the biological mechanisms of action; tradeoffs between transmissibility and virulence that infectious disease vectors experience in their quest to propagate themselves without killing their hosts; the history of Rockefeller medicine; uses and limitations of PCR and lateral flow tests; how psychological pressure works on the human mind and in human social groups; and statistical data demonstrating that differences between pre-Covid mortality and "deadly global pandemic" mortality are fully attributable — not to any communicable disease — but to the intentional lethality of interventions (economic disruption and unemployment, social isolation, masks, and synthetic toxins) whose premeditated deployment was pseudo-authorized on grounds that a "public health emergency exists."

Most Bailiwick readers are already up to speed those subjects and how they fit into the big puzzle that close observers of anomalies and inconsistencies have been piecing together since January 2020, day by day as events have unfolded.

I'm hoping to spend a lot of time the next few weeks on the Texas and Oklahoma v. HHS and Becerra case documents, because it's a rich mine of information about elements of the giant lie variously known as one world health, global

When I read legal documents, I look for phrases and arguments that seem odd or off-tone.

Public health and emergency preparedness law documents are full of such phrases, embedded into contorted sentences and paragraphs to obscure or shade or corrupt their meanings.

Example terms and phrases include precommunicable, asymptomatic, qualifying stage of a disease, existing circumstance, predicate to action, independent decision, "desirability of encouraging," "data, if available," "not feasible," and medical countermeasures.

The phrase that jumped out at me in reading the Texas v. HHS documents is "inform the public."

It's not a strange phrase in itself. It's strange for how it's used.

It's used as a code word for cognitive and behavioral training.

\*

In their original petition in July 2022, the attorneys general for Oklahoma, Texas and 13 other states asked HHS to revise 42 CFR 70.1 to remove three of the five definitions of "public health emergency" that authorize HHS officials to exercise and delegate federal police power to detain individuals suspected of carrying disease.

The AGs presented three arguments.

First, the petitioners argued that the WHO-based definitions of "public health emergency" promulgated in January 2017 "exceed HHS's authority," as granted by Congress.

Second, the petitioners argued that the listing of World Health Organization acts as predicates for "public health emergency" declarations is unlawful "because WHO is not a trustworthy agency for public health information."

This argument was derived from the petitioners' erroneous belief that Covid-19 was a deadly global pandemic, in response to which WHO officials provided poor global leadership.

In truth, Covid-19 was merely a theatrical production of a deadly global pandemic and WHO officials have been serving as producers and directors for the performance.

Third, they argued that since the HHS had conceded that "it does not intend to use" the WHO-predicates for public health emergency declarations, the three WHO predicates are unnecessary and could be removed without harm to the agency.

The petitioners wrote:

"In the Federal Register notice issuing the definition of public health emergency, HHS indicated that it would make independent decisions regarding public health emergencies. 82 Fed. Reg. 6890, 6906. Those independent decisions would continue to be cognizable under definitions (1) and (2) were this Petition granted. Accordingly, HHS would suffer no harm from granting the petition."

The petitioners concluded:

"The only potential reason to retain unlawful rules that HHS does not believe it needs is to permit a future HHS to change its mind in later years...

By including the additional definitions deferring to the WHO, HHS is facilitating complete deferral to the WHO in the future even if it professes no intent to defer to WHO now...

[I]f we believe its protestations in the Federal Register, the existing HHS does not believe it needs definitions (3), (4), and (5) to manage public health emergencies, [so] it should repeal them as unnecessary even if it does not want to address the legality issues and WHO concerns raised..."

\*

In October 2022, Marvin Figueroa, HHS Director of Intergovernmental and External Affairs, responded to the petitioners, denying their request to remove the "public health emergency" definitions predicated on the acts of WHO member nations and the WHO Director-General.

In addressing petitioners' second argument, Figueroa cited the need to "inform the public" as driving the definitional rule-making.

Figueroa wrote, at p. 4:

"Although we acknowledge the concerns noted in the petition regarding purported political influence on WHO decision-making, they do not support removing references to that organization. Rather, HHS/CDC considers it important to include references to WHO in the definition of "public health emergency" to **inform the public** of the circumstances that HHS/CDC may consider when determining whether a public health emergency exists using its own independent judgment.

Furthermore, we are committed to strengthening WHO...to prepare for and respond to COVID-19 and the next pandemic. These efforts include strengthening the IHR (2005)..."

In his final paragraph on p. 6, he repeated the phrase:

"Lastly, your assertion that HHS/CDC would not be harmed by deleting definitions 3, 4, and 5 of "public health emergency" as used in 42 CFR 70.1, even if accurate, does not justify the expenditure of agency resources to amend the regulations.

Also, as explained in the 2017 Final Rule, HHS/CDC considered it important to include references to WHO in the definition of "public health emergency" to **inform the public** of the circumstances that HHS/CDC may consider when making such a determination using its own independent judgment."

Petitioner states filed a federal complaint in January 2023, and the phrase "inform the public" shows up in each document as the two sides argued the point.

See Jan. 18, 2023 Complaint at p. 8; March 27, 2023 Defendants' Brief in Support of Motion to Dismiss at p. 10 and 19; May 1, 2023 Plaintiffs Response in Opposition to Motion to Dismiss at p. 4; May 15, 2023 Defendants' Reply to Plaintiff's Response to Defendants' Motion to Dismiss at p. 2; and Aug. 18, 2023 Opinion and Order Granting Motion to Dismiss at p. 4.

\*

This odd HHS focus on "informing the public" is telling.

I think the state AG petitioners are correct that HHS wants to keep the WHO-based predicates for "public health emergency" declarations so that they can be used to create more illusions of "deadly global pandemics" in future.

I also think that the treaties and statutes are already written with enough interlacing between international and domestic law, that the WHO-HHS International Health Regulations Public Health Emergency of International Concern-Public Health Emergency automatic trigger system is already fully functional, even as the Monster works to make the treaties and statutes even more disordered in relation to natural and divine law.

But I think the "inform the public" rationale is mostly about manipulating individuals.

The globalist Monster has an intense desire to instill into human minds the fiction that the phrase "world health" corresponds to something in material, temporal reality; the Monster wants to justify the existence of a global organization to surveil and control, to coordinate field operations through subordinate organizations within member countries' governments.

In truth, there is only individual human health, corresponding with things in both material, temporal reality and in spiritual, eternal reality.

Individual well-being is organized by God in co-operation with the human creatures to whom He gives bodily, material form at conception, within the temporal human societies we build and arrange so that we can love, live, work, raise children, and conform our souls to the will of God in the hope of eternal salvation for ourselves and our neighbors.

The Monster wants to substitute — inside human bodies, minds, and souls — the fiction of "world health" defined in secular, materialist terms as the ultimate end of human life and the ultimate purpose of human society, for the truth that God created mankind as material and spiritual beings.

The Monster wants to cut us off from the knowledge that we are beings for whom temporal existence is a brief opportunity to know, love and serve God: directly through prayer and worship, and indirectly by knowing, loving and serving our neighbors as ourselves, in our human societies, vocations and stations in life.

Above all else, the Monster wants to cut us off from the knowledge that we are beings for whom spiritual existence is eternal: eternal happiness with God in heaven or eternal torment separated from God, in hell.

That's why it was so important, in 2016 and 2017, for the Monster to add the last few legal props ahead of the sequel to Spanish flu, the theatrical performance "Deadly Global Pandemic: Covid-19."

It was to further build up the cognitive and behaviorally-compliant connection between the phrases *public health emergency* and *World Health Organization*, and from there, to HHS authority to use police power to arrest, detain, torture and murder anyone, anywhere, at any time, on suspicion of carrying communicable disease.

\*

One reason why the Texas federal judge dismissed the petitioner states' case against Xavier Becerra and the Department of Health and Human Services is that the judge didn't think the states presented any evidence of actual harm, concrete injury or threatened imminent injury to the people living in the states.

HHS argued, and the judge agreed, that the harm from the WHO-based definitions of "public health emergency" were speculative, hypothetical, conjectural, and therefore the states lacked standing.

Soon, the next "deadly global pandemic" performance will begin.

If and when state AGs file new cases to protect state residents from "public health emergency"-predicated arrest, detention, torture and murder, it will be very important that they incorporate the information that has so painfully been brought into the light these last few years.

They must lay out the evidence that "deadly global pandemic" stories are fiction.

They must incorporate the facts about the injuries and deaths caused in each state by use of products known as "Covid-19 vaccines" under Emergency Use Authorization status: the actual harms and concrete injuries.

They must lay out how deployment of EUA products, as covert biochemical weapons, is directly connected to HHS declarations that a "public health emergency exists."

And they must lay out how HHS declarations that a "public health emergency exists" are directly connected to all five of the legal definitions inserted into American regulatory law through the January 19, 2017 edition of the Federal Register, and connected to the whole system of treaties and laws built to enable State-sponsored mass murder,<sup>158</sup> which grows more ripe for dismantling with every passing day.

It's true that virtually all national governments are currently infiltrated and occupied by globalists, especially in the unelected, administrative offices of the United States (secretariats of Health and Human Services, Defense, Homeland Security, Justice and more cabinet agencies).

It's also true that many of the men and women currently holding elective political offices are — to varying degrees and in various combinations — corrupt, incompetent, terrified and malevolent.

It is not true that the United Nations, Bank for International Settlements, World Bank, International Monetary Fund, World Economic Forum and World Health Organization are good substitutes for national governments, to which people should transfer geopolitical loyalty.

## Covert global civil war.

THREE priorities for killers:

- **PERCEIVED LEGITIMACY** - They want people to believe concentration of Monster power is lawful, morally sound, and materially/practically useful for dealing with threats/emergencies, and also believe that prior (nation-state) governments are illegitimate/inadequate/incompetent, thus power should transfer to UN/globalists.
- **SPEED** - They want to reduce world population, and especially North American and Western European population, to meet 2030 deadline.
- **PLAUSIBLE DENIABILITY** - They want people to believe that intentional, manufactured biochemical and financial attacks, gov. institutional failures are natural or accidental phenomena (disease, weather events, fires, spills, spontaneous wars)

**Priorities in conflict.** Gradual legal changes and gradual sterilization and induction of chronic disease 1940-2019 not on track to meet 2030 goals.

2020-2024 - Rapid, massive, coordinated concentration of power alerted some of the targets that something weird was happening.

Technocratic idolatry is a geopolitical disease, not a geopolitical cure.

## Oct. 23, 2023 - On civil suits against Pfizer for “contamination” of Covid-19 biochemical weapons.

A reader sent an email asking for my views on claims that Pfizer is newly vulnerable to civil suits, in the wake of

- 1) a Michigan state court ruling about the applicability of the PREP Act in cases involving “contaminated” pharmaceutical products and
- 2) the growing pile of sequencing studies replicating Kevin McKernan’s identification<sup>171</sup> of plasmids, SV-40 promoters and other “contaminants” in the DoD biochemical weapons formerly known as “Covid-19 vaccines.”

Brief recap of events since 2020:

The alleged manufacturers (Pfizer, Moderna, etc.) did not disclose the ingredients now being found by independent researchers, to the alleged regulators (US-FDA, European Medicines Agency, Australian Therapeutic Goods Association, etc.) or to the public.

The alleged regulators did not demand disclosure of ingredients; did not independently evaluate the ingredient claims of the alleged manufacturers; and — even when they noted irregularities (see Latypova memo to Sen. Ron Johnson, Dec. 18, 2022, at p. 4/12,<sup>172</sup> re: EMA Nov. 2020 “rolling review” of Pfizer’s Chemical and Manufacturing (CMC) Controls documentation) — did not enforce purity and non-adulteration regulations.

Instead, the alleged regulators granted “approvals” and “authorizations,” and instructed populations to submit to injection and shun anyone who wouldn’t submit.

Together, the alleged manufacturers and alleged regulators withheld ingredient information and information about regulatory non-regulation, from victims of the DoD’s biowarfare campaign formerly known as the “Covid-19 vaccination program.”

Some thoughts below; it’s a cut-and-paste of my email response.

...The Michigan case has to do with glass shards in Remdesivir: Nowacki v. Gilead.<sup>173</sup>

Yes, the whole thing is a coordinated red herring to pull attention and money away from attacks on DoD and WHO.

I need to think it through a bit more, but I think the goal (of the Monster-agents pushing for new “contamination” civil suits against Pfizer) is to make it somewhat clearer that PREP Act coverage not only gives killers a “just following orders” defense if they’re challenged for doing the things HHS/CDC/DoD orders them to do (lethal injections, hospital homicides) but it also forces them to follow those orders by making the only circumstances under which they can be prosecuted, circumstances in which they don’t follow HHS/CDC/DoD orders to the letter.

So, for example, HHS/CDC/DoD orders hospitals and health care workers to use Remdesivir, even though in its uncontaminated form, it’s deadly.

Hospitals and health care workers that refuse to use Remdesivir are the only ones who are liable under PREP.

That’s why the ones who didn’t want to be killers have all quit the “Covid wards,” and the only ones left are happy to kill. [Excellent interview by Sasha Latypova on this subject, with interviewer Shannon Joy.<sup>174</sup>]

HHS/CDC/DoD also orders Gilead to produce Remdesivir, to specifications that don’t include glass shards. Gilead is only liable to the extent that non-HHS-approved-toxins (ie glass shards) end up in the product.

Same deal with the Saldana v. Glenhaven<sup>175</sup> case.

### **PREP Act is a legal tunnel to trap health care workers and turn them into criminals.**

The Pfizer cases will be slightly different. We know HHS/CDC/DoD has ordered Pfizer to produce a variety of different compounds, with various toxicity levels and mechanisms of action. We also know that they all planned to destroy Pfizer as a front organization, to channel the public anger when people started figuring it out.

If Pfizer just goes bankrupt, and the bankruptcy court starts allocating its assets to creditors, maybe Covid-19 shot victims will be somewhere at the bottom of the list of payees, but more likely not. The money all passed through Pfizer a long time ago, out the back door into the pockets of politicians and bankers. It's been a DoD front company/shell company for many years.

So the exercise [that people calling for new civil suits against Pfizer] are advocating is more about getting people to waste their time and money for the next 3-4 years than anything else.

However, if some of the civil cases are framed properly, to draw Pfizer into pointing to DoD as the source of the raw materials and contractual obligations to put "contaminants" like SV-40 promoters into the products and not disclose those ingredients to regulators or victims, then the civil cases could be useful to continuing to expose the whole criminal enterprise to the public and mobilize Congress to withdraw the US from WHO and the UN, and repeal PREP Act, the EUA laws and the rest of the "public health emergency" legal structure.

Pfizer may try to use PREP Act in its defenses to civil suits, but will probably lean harder on the Defense Production Act, 50 USC 4558, *Voluntary agreements and plans of action for preparedness programs and expansion of production capacity and supply*, especially sections (j) and (o).

The pharmaceutical corporations have essentially turned into a branch of the federal government, whose agents have been granted sovereign immunities and set beyond ordinary judicial proceedings, short of treason, sedition and bioterrorism prosecutions.

I think [the] civil liability approach is very valuable for drawing that government-corporation merger or absorption process into clearer view and public understanding, in the same way that Brook Jackson's False Claims Act case provides opportunities to see it in action, through (so far) the Pfizer arguments April 22, 2022<sup>177</sup> at pp. 8, 11-13 and 25-26, and the US government's endorsement of that legal argument Oct. 4, 2022<sup>178</sup> at pp. 6-8...”

“...[Brook Jackson's] complaint does not identify any provision in the SOW for the Project Agreement between Pfizer and the Army that conditioned Government payment for the vaccine on Pfizer's compliance with the clinical trial protocol or regulations.

The SOW, which is attached to the complaint, further specifies that the Army did not regulate the conduct of the clinical trial, which is “out-of-scope” for the purchase agreement between the Army and Pfizer.

**In short, the complaint does not plead factual content to support a conclusion that compliance with the clinical trial protocol or regulations was necessary under the contract between Pfizer and the Army such that clinical trial violations would give rise to a claim for express or implied certification liability.”**

**Oct. 25, 2023 - Some county and state lawmakers are starting to get better informed and more concerned. Tools to help them understand what's happening and respond appropriately.**

Note: I think it's important to have a credible chain of transmission for legitimate governing authority across time. If and when the current US federal government collapses due to loss of constitutional legitimacy and public trust, governing authority can revert to lower levels: state and county lawmakers, judges, prosecutors and executives.

To the extent those state and county leaders understand what's happening, retain public trust by demonstrating strong, trustworthy leadership, and position themselves to stabilize their own political jurisdictions during the collapse, they will also be prepared to

- 1) eventually reconstitute a legitimate federal government that conforms to the US Constitution, natural law and divine law and
- 2) organize public criminal trials for the traitors<sup>179</sup> who have orchestrated the covert, public-health-predicated, treason and sedition campaign<sup>180</sup> known as "Covid-19" since January 2020.

Many individuals and organizations have been working throughout the Covid-19 constitutional crisis to educate county and state legislators, law enforcement officers, judges and governors about their constitutional authority to step in and protect life, liberty and property when federal government officials (Congress, President, federal judges, cabinet secretaries) are demonstrably unable or unwilling to do so.

WeThePeople50<sup>181</sup> is one of those organizations.

WeThePeople50<sup>182</sup> works with citizens and with county and state lawmakers across the United States to help people understand the intrinsic toxicity of the biochemical weapons presented to the public as "Covid-19 vaccines" and "mRNA platform technologies," and to help county and state lawmakers recognize their constitutional duty and use their constitutional authority to protect and defend the people who live within their political jurisdictions.

In May 2023, WeThePeople50 organizer Laura Demaray requested and obtained time on the Washington County (Idaho) Board of Commissioners' agenda.

matter has been brought forward to the FDA (Food and Drug Administration), but no response has been received. Lindsay requested immediate recall of the vaccines.

Dr. Peter McCullough, Texas, discussed his background. McCullough stated that in his opinion, all the Covid 19 vaccines are not safe. McCullough discussed symptoms from the vaccines. McCullough further stated that the vaccines are not medically necessary and did not stop Covid 19. McCullough informed the Board that the vaccines do not prevent the spreading of the disease. McCullough further stated that there are no benefit vaccines and that they have caused extraordinary harm and should be removed from markets.

Dr. James Thorp, Florida, addressed the Board. Thorp stated he has been practicing for 44 years. Thorp informed the Board that he has seen increased complications in pregnancies. Thorp stated that this is the most lethal drug ever rolled out.

Dr. Ryan Cole, Boise, stated that his opinions expressed today are his own. Cole provided a brief background to the Board. Cole stated that there has been an increase in cancer after the roll out of the injections. Cole informed the Board there are no long-term safety studies available on any of the products. Cole stated that the injections have altered the ability of immune systems.

Dr. Sasha Latypova provided a review of her background to the Board. Latypova stated that consumer protection laws were suspended for these injections. Latypova informed the Board that she believes that it is urgent that a vote of no confidence be issued regarding the vaccines. Latypova further stated that the animal testing that was conducted was fraudulent, and that contamination cannot be traced. Latypova stated that the vaccines need to be fully investigated and tested.

Demaray reviewed materials provided to the Board. Demaray stated that she came to the Board because **if the authorities above the Commissioners do not protect citizens it falls to the Board and the Sheriff.**

Demaray, Lindsay, Latypova and others have since testified before several other county and state boards, commissions and committees. [At Dr. Lindsay's invitation, I participated in a panel providing information to the South Carolina Senate Medical Affairs Committee last week: slide deck.<sup>186</sup>]

## How to approach county commissioners and county clerks, also known as "lesser magistrates."

A book that conveys the value, authority and duty of lesser magistrates is “The Doctrine of the Lesser Magistrates” by Matthew Trewhella<sup>195</sup> (2013).

1. Look up on the internet who your county commissioners are and their county clerk. On their website you can see the usual meeting times, agendas and contact numbers.
2. Call the county clerk and ask "How does someone get on the agenda at the board of commissioners meeting?" Ask if zoom is available for others that you would like to join you to speak at the board of commissioners meeting.
3. The clerk will explain the procedure for getting on the agenda, and they will often offer 3-15 minutes for you on the agenda. You can take that time to speak or if you need more time, such as for a presentation from a science and medical team, or any other subject matter expert, you can let them know for your subject matter you really need about 30 minutes or more and ask how would it be possible for a very important issue.
4. The clerk will ask you what the subject of your presentation. You can share that it's regarding the multiple adverse effects of the genetic covid shot to your community or friends and family, and that it is on the childhood schedule currently. You can share that would like to have some subject matter experts present to your commissioners in an appeal to your lesser magistrates regarding the danger of contaminated genetic shots and their county-level authority to address the danger and protect county residents. Sometimes that will be enough and sometimes the clerk will ask you to reach out to the commissioner chair for permission to be on the agenda.
5. You may simply share that you would like them to watch a video of the presentation, or you may want the group of subject matter experts to present on zoom. Let us know and we will help as much as we can to get you presenters no matter how rural or urban your county may be. WethePeople50 can provide some of your subject matter experts. Please notify us a few weeks before your scheduled meeting, so we can put your meeting on our schedule and line up testimony.
6. Prepare a brief speech. It should be less than 4 minutes long. You should time it and practice it before the meeting, so you can stand strong in front of the county commissioners, county staff, and possible audience of your fellow citizens.
7. Prepare a county commission resolution or action item letter to present at your meeting for their team to consider, to sign and send to your state Attorney General or Governor.
8. This may take two visits to your board: the first to educate, the second visit to present our resolution or action letter as an action item.
9. You can also approach your local state legislators, your Attorney General, Governor, your county sheriff, your health district boards, your school boards, and even your US legislators (Congress members and Senators) with a similar approach of simply calling and asking how to do it.
10. If you are given time with a legislative aide at the US legislators' office, realize that legislative aides are the workers, researchers, and opinion drivers for your US Representative or Senator. It is worth your time to connect and share your valuable information with them.

Remember to be sincere, polite, and have no fear.

The territory that you approach is often opposition or at best neutral territory.

Prayer, having a friend go with you to be in the room as moral support, and putting on the whole armor of God will be helpful.

Template: Letter to County Commissioners, County Clerk, County Staff

Dear [County] Commissioners, Clerk and Staff [or state/federal legislators, governor, prosecutors];

I am reaching out to request 30-45 minutes of your time in [\_\_weeks/next month] to present information about a topic that most [state or commonwealth] residents have heard about — genetic 'vaccine' platform technologies — but may not know the details and adverse effects to adults, children, and even livestock.

The presentation would include a brave team of scientists, toxicologists, genomicists, and doctors that I will invite to attend via zoom from around the nation. These men and women have already participated in many similar informational meetings for county and state officials across the country in recent months.

We will present the evidence of data, materials, and peer-reviewed studies that I can leave with you for your review. This little group of brave people risk their lives, jobs, licenses, certifications, and privacy to be a resource at these informational meetings and to share their hard-earned expertise.

I and my colleagues can make the scientifically irrefutable case that this technology is contaminated, adulterated, and misbranded causing death and disability to the people of [state or commonwealth]. These deleterious injections and gene therapy technologies cause irreversible damage to children, fetuses, and adults and animals. This technology is now on the routine child immunization schedule and will be in more products than just Covid shots, including other childhood vaccines and flu shots. This contaminated and harmful technology is going to be in our once trustworthy livestock vaccines soon as well.

I am a resident in [county] but will have residents from [other counties] with me there for the presentation. Even if this is a subject that is frightening or offensive, or even if one believes media messages that the injections are “safe and effective,” perhaps our presentation will be the first opportunity to hear the rest of the story. It could be the best dialogue with some of the bravest and informed subject matter experts that you may ever have regarding this historical, and egregious DNA and life altering technology.

Thank you so much for your time and consideration.

21 USC 360bbb-3. Authorization for medical products for use in emergencies

21 USC 360bbb-3(e). Conditions of authorization.

21 USC 360bbb-3(e)(3). Good manufacturing practice; Prescription

**With respect to the emergency use of a product** for which an authorization under this section is issued (whether an unapproved product or an unapproved use of an approved product), **the Secretary may waive or limit**, to the extent appropriate given the applicable circumstances described in subsection (b)(1)—

(A) **requirements regarding current good manufacturing practice otherwise applicable to the manufacture, processing, packing, or holding of products** subject to regulation under this chapter, including such requirements established under section 351 or 360j(f)(1) of this title, and including relevant conditions prescribed with respect to the product by an order under section 360j(f)(2) of this title;

(B) requirements established under subsection (b) or (f) of section 353 of this title or under section 354 of this title; and

(C) requirements established under section 360j(e) of this title.

21 USC 360bbb-3a - Emergency use of medical products.

21 USC 360bbb-3a(c) Current good manufacturing practice

(1) In general. **The Secretary may**, when the circumstances of a domestic, military, or public health emergency or material threat described in subsection (a)(1)(C) so warrant, **authorize, with respect to an eligible product, deviations from current good manufacturing practice requirements otherwise applicable to the manufacture, processing, packing, or holding of products subject to regulation** under this chapter, including requirements under section 351 or 360j(f)(1) of this title or applicable conditions prescribed with respect to the eligible product by an order under section 360j(f)(2) of this title.

(2) Effect. Notwithstanding any other provision of this chapter or the Public Health Service Act [42 U.S.C. 201 et seq.], **an eligible product shall not be considered an unapproved product** (as defined in section 360bbb-3(a)(2)(A) of this title) and **shall not be deemed adulterated or misbranded** under this chapter because, with respect to such product, the Secretary has authorized deviations from current good manufacturing practices under paragraph (1).

I haven't yet located documents purporting to be HHS Secretary authorization of waivers, limitations or deviations from cGMP for the manufacture of the biochemical weapons injected into Americans and people around the world as "Covid-19 vaccines."

I have seen waiver documents pertaining to other EUA products, including ventilators:

- March 24, 2020 - FDA Letter of Authorization, EUA, ventilators, by HHS Rear Admiral Denise Hinton, FDA Chief Scientist.<sup>196</sup> (Section III at p. 7)

There are several possible reasons why I haven't found HHS waiver/limitation/deviation of cGMP documents for "Covid-19 vaccines."

One is that the documents are in the Federal Register somewhere, on an HHS website somewhere, or even in my research hard-drive with searchable keywords but I just haven't found them.

Another possibility is that the documents have been scanned into the Federal Register without being converted to OCR format (Optical Character Recognition), so keyword searches don't produce hits.

<sup>196</sup> <https://bailiwicknewsarchives.files.wordpress.com/2023/10/2020.03.24-fda-ventilator-eua-letter-of-authorization-cgmp-waive-p.-7.pdf>  
Bailiwick News - September to October 2023 - Written and compiled by Katherine Watt. kgwatt@protonmail.com

This is the format in which the Dec. 11, 2020 (Pfizer) and Dec. 18, 2020 (Moderna) FDA Letters of Authorization were entered into the Federal Register:

- Jan. 19, 2021 Federal Register - 2020.12.11 HHS FDA RADM Denise Hinton EUA, Pfizer eff 2020.12.11, Moderna eff 2020.12.18 dated 2021.01.12 86 FR 5200

A third possibility is that the HHS waiver/limit/deviation from cGMP documents are classified as national security records not subject to public disclosure.

I have seen provisions in the Dec. 11, 2020 (Pfizer) and Dec. 18, 2020 (Moderna) Federal Register notices<sup>197</sup> by Rear Admiral Denise Hinton, that could be construed as requiring cGMP compliance.

See Section III, Item I, Conditions of Authorization, at p. 8/20 for Pfizer Letter of Authorization, and Section III, Item I, Conditions of Authorization, at p. 17/20 for Moderna. The provisions look like this:

I. All manufacturing facilities will comply with Current Good Manufacturing Practice requirements.

These provisions can only be construed as requiring cGMP compliance, if observers ignore the knowledge painfully gained from Brook Jackson's whistleblower case: that there are public-facing contracts and regulatory documents listing otherwise applicable terms and conditions, and also as-yet-undisclosed contracts, authorizations, notices and other regulatory documents that nullify, void, waive, limit or authorize deviation from the otherwise-applicable, otherwise-enforceable terms and conditions in the public-facing documents, rendering them inapplicable and unenforceable.

[Update/clarification from Sasha Latypova: Technical fine point -- the facility can be cGMP compliant, but that does not mean the specific product is cGMP compliant. The reference to "cGMP compliant facilities" is another set of words designed to deceive the reader. cGMP compliance for pharmaceutical product means the process of making that specific product, it's raw materials and all quality control steps are certified compliant. I believe that the DOD is sending "black box" components to be assembled by pharma in pharmaceutical manufacturing places but pharmas themselves (especially employees on the manufacturing line) probably do not have good idea or traceability of what those components are.]

Three years into the covert biochemical warfare being waged by the US Government through the Department of Defense, Advanced Technologies Inc., Medical CBRN Defense Consortium, and contractors including Pfizer and Moderna, cGMP regulations remain observably unenforced.

New lawsuits filed on the basis of mounting evidence that the products have been throughout, and are still being "adulterated" should take these legal facts into account.

Plaintiffs should draft the complaints so as to give HHS Secretary Xavier Becerra and Attorney General Merrick Garland opportunities to cite 21 USC 360bbb-3(e)(3) and 21 USC 360bbb-3a(c) in their defenses, and produce the signed, dated, unredacted authorization documents through which former HHS Secretary Alex Azar and/or current HHS Secretary Becerra waived, limited or authorized deviation from cGMP regulations for manufacture of "Covid-19 vaccines."

County and state lawmakers considering action to protect and defend the people living in their political jurisdictions from further attacks — for example, by banning use of mRNA products, halting all "vaccination" programs, and seizing contraband vials stored at pharmacies and in transit across state borders — should also take 21 USC 360bbb-3(e)(3) and 21 USC 360bbb-3a(c) into account.

**Oct 28, 2023 - Whatever is in the biochemical weapons bearing Pfizer and other pharma labels, is there because US SecDefs and their WHO-BIS handlers ordered it to be there. Military contractors who work in the information space are erecting firewalls between that truth and the public, using “adulteration,” “contamination” and civil suits against Pfizer to delay/deflect.**

I got a text this morning re: Robert Malone making the media rounds discussing SV-40 and other “contaminants” sequenced from vials of DoD biochemical weapons labeled as “Covid-19 vaccines;” “adulteration;” and “short DNA fragments not in the formulations” provided to the FDA.

The person who sent the text doesn’t regularly read Bailiwick or Sasha Latypova’s Due Diligence Substack.

He paraphrased Malone’s points as: “has potential to cause vaccine removal from sale and Pfizer exposure to fraud allegations” and wondered if the information could cause the judge in Brook Jackson’s whistleblower case to set aside judgment.

*My reply:*

No. It’s a red herring intended to divert and distract...Sasha and I have been posting explainer pieces in the last week or so.

- Oct. 19, 2023 - Breaking: Pfizer is going under the bus...<sup>198</sup> (Sasha Latypova) - “...As part of “covid live military exercise” it was always planned that when deaths and injuries become so undeniable, that 98%+ Americans refuse the boosters (and technically become anti-vaxxers), and the truth about DOD deploying bioweapons on Americans with intent to kill and harm becomes sort of known, Pfizer will be “prosecuted” with much great publicity (to drown out the truth)...”
- Oct. 23, 2023 - OMG, SV40! Can We Sue Pfizer NOW?<sup>199</sup> (Sasha Latypova)
- Oct. 23, 2023 - On civil suits against Pfizer for “contamination” of Covid-19 biochemical weapons. (Katherine Watt)
- Oct. 26, 2023 - 21 USC 360bbb-3(e)(3) and 360bbb-3a(c): federal law authorizing HHS Secretary to waive current Good Manufacturing Practices (cGMP) for EUA products. (Katherine Watt)

Best use of red herring, in my view, is to use it to point back to kill box laws,<sup>200</sup> Congress, Department of Defense, and World Health Organization.

That’s what Malone and his colleagues are tasked with hiding...

SV-40 promoter inserts are real.

What Malone, Steve Kirsch and other DoD spokesmen are doing is a distraction maneuver to keep attention away from the **intentional** toxicity of the biochemical weapons, the DoD/WHO control of the programs, and the fact that “biodefense” is camouflage for straight-up State-sponsored biowarfare, conducted by bringing pharmaceutical companies into the military-industrial-Congressional complex, calling bioweapons “vaccines,” and terrifying people into taking them under “public health emergency” and “pandemic” narratives.

More county and state lawmakers are starting to figure out the federal mass murder program and work on responses<sup>201</sup> to protect the people in their political jurisdictions.

So the Monster is deploying Malone, Kirsch and the rest of the narrative-management team to take the SV-40 story in the wake of Kevin McKernan and others doing more sequencing studies, and direct it away from US kill box laws, DoD, WHO, **intentionality** and the **intrinsic lethality of all mRNA platform technologies**, toward civil suits against Pfizer for “adulteration” and “contamination.”

They are trying to shield the mRNA technology and ‘vaccination’ program platforms, and the public health emergency geopolitical and legal platforms from growing public understanding of what’s really going on, so that the Monster can keep using “public health emergency” laws, orchestrated “pandemics,” “vaccines,” and mRNA-platform poisons to sicken and kill many more people for many years to come.

**Oct. 30, 2023 - Litigation framing: biochemical weapons used on military targets, not experimental drugs used on clinical trial subjects. Post-Jackson, post-Bridges litigation should start from true premises, not false ones.**

A reader included me on a group email thread this morning about the Nuremberg Code, informed consent, American state laws founded on the Nuremberg Code, and applicability of those laws for plaintiffs injured and killed by the DoD biochemical weapons known as "Covid-19 vaccines."

I replied with links to Bailiwick reporting and analysis:

Feb. 9, 2023 - On the significance of 21 USC 360bbb-3(k): "use" of EUA products "shall not constitute clinical investigation."

21 USC 360bbb-3 Authorization for medical products for use in emergencies

...21 USC 360bbb-3(k) Relation to other provisions

If a product is the subject of an authorization under this section, the **use of such product** within the scope of the authorization **shall not be considered to constitute a clinical investigation** for purposes of section 355(i), 360b(j), or 360j(g) of this title or any other provision of this chapter or section 351 of the Public Health Service Act [42 U.S.C. 262].

Aug. 18, 2023 - Bridges v. Houston Methodist Hospital. Court decisions supporting the conclusion that vaxx recipients are military targets, enemy combatants, chattel slaves or similar legal status in which consent is moot.

Key paragraphs in Bridges v. Houston Methodist ruling by USDJ Lynn N. Hughes, US District Court, Southern District of Texas:

"...Bridges does not specify what illegal act she has refused to perform, but in the press-release style of the complaint, she says that she refuses to be a "human guinea pig." Receiving a COVID-19 vaccination is not an illegal act, and it carries no criminal penalties. She is refusing to accept inoculation that, in the hospital's judgment, will make it safer for their workers and the patients in Methodist's care...

She also argues that injection requirement violates federal law governing the protection of "human subjects." She says that the injection requirement is forcing its employees to participate in a human trial because no currently-available vaccine has been fully approved by the Food and Drug Administration. Federal law requires participants give legal, effective, and informed consent before participating in a human trial; this consent cannot be obtained through coercion or undue influence. Bridges says the threat of termination violates the law...

Bridges has again misconstrued this provision, and she has now also misrepresented the facts. **The hospital's employees are not participants in a human trial. They are licensed doctors, nurses, medical technicians, and staff members. The hospital has not applied to test the COVID-19 vaccines on its employees, it has not been approved by an institutional review board, and it has not been certified to proceed with clinical trials.** Bridges's claim that the injection requirement violates 45 C.F.R. § 46.116 also fails.

She also says that the injection requirement is invalid because it violates the Nuremberg Code, and she likens the threat of termination in this case to forced medical experimentation during the Holocaust. The Nuremberg Code does not apply because Methodist is a private employer, not a government. Equating the injection requirement to medical experimentation in concentration camps is reprehensible. Nazi doctors conducted medical experiments on victims that caused pain, mutilation, permanent disability, and in many cases, death.

Although her claims fail as a matter of law, it is also necessary to clarify that Bridges has not been coerced. Bridges says that she is being forced to be injected with a vaccine or be fired. This is not coercion. Methodist is trying to do their business of saving lives without giving them the COVID-19 virus. It is a choice made to

keep staff, patients, and their families safer. Bridges can freely choose to accept or refuse a COVID-19 vaccine; however, if she refuses, she will simply need to work somewhere else...”

The *Bridges* ruling has been affirmed by Fifth Circuit Court of Appeals<sup>202</sup> and is now cited as precedent.<sup>203</sup>

Reader asked: “Do you agree with their ruling?”

My reply:

Yes.

Here’s the chain of reasoning.

Plaintiffs filed their cases claiming that the products were experimental vaccines, and that recipients were participants in clinical trials and therefore had cognizable informed consent rights.

Plaintiffs were entitled to believe that at the time they filed (January 2021 for Brook Jackson, June 2021 for Jennifer Bridges and her co-workers), because those are part of the package of lies (legalized fraud) presented to the public through false, misleading, ambiguous and concealing language used by federal and state officials to describe the products and the programs.

As military targets of DoD biochemical weapons, plaintiffs do not fall under informed consent laws and clinical trial subject participant protections. Those laws are inapplicable in military/war contexts.

Through the *Jackson*<sup>204</sup> and *Bridges*<sup>205</sup> decisions, the federal government has made clear that the products are biochemical weapons and the use is a military operation **intended** to harm and kill recipients.

So cases that are being brought now, still characterizing the products as regulated, medicinal products (“experimental vaccines”); still characterizing recipients as participants in regulated clinical trials; still characterizing government programs as “public health” campaigns; and still characterizing Covid-19 as a “deadly global pandemic;” are being brought under false premises.

In my view, all such cases will continue to be dismissed, by judges following the public health emergency (PHE) and Emergency Use Authorization (EUA) laws and building on the *Jackson* and *Bridges* precedents.

This is why I have advocated and still advocate that attorneys draft the factual history and legal argument sections of all post-Jackson, post-Bridges lawsuits, by

1. identifying the enabling statutes, regulations and treaties,<sup>206</sup> and directly challenging their constitutionality;
2. calling the products intentionally-lethal DoD biochemical weapons;
3. characterizing the plaintiffs as military targets of military weapons during a military campaign (Operation Warp Speed); and
4. identifying — as defendants — the men and women running the military campaign in their personal capacities only,<sup>207</sup> as individuals impersonating government officials.

To date, to my knowledge, no attorneys have been interested in filing such cases. I’ve been told it’s because there’s no money in it, either now or in future.

The advantages of such legal strategies are two-fold:

1. They happen to be true accounts of what's happening, and
2. They have very high potential to educate the public and drive public pressure on Congress and the state legislatures to repeal the enabling laws,<sup>208</sup> strip the legal immunities currently held by the people running the programs, and re-assert the US Constitution as superseding and nullifying the United Nations World Health Organization International Health Regulations.

Repealable laws enabling State-sponsored mass murder of Americans:

- Homeland Security Act (6 USC Ch. 1, Domestic Security)
- Federal Reserve Act (12 USC Ch. 3, Banks and Banking)
- International Bureaus, Congresses, Etc., (22 USC Ch. 7, Foreign Relations and Intercourse) including Subchapter XVIII, International Organizations Immunities Act, and Subchapter XX, World Health Organization
- Defense Against Weapons of Mass Destruction Act, (50 USC Ch. 40, War and National Defense), including amendments to 10 USC Ch. 15, Armed Forces (Military Support for Civilian Law Enforcement Agencies), and amendments to 10 USC 382, renumbered to 10 USC 282, authorizing domestic deployment of military against civilians during “emergency situations involving chemical or biological weapons of mass destruction.”
- **Food Drug and Cosmetics Act, (21 USC Ch. 9, Food and Drugs), including Emergency Use Authorization program**
- **Public Health Service Act (42 USC Ch. 6A, Public Health and Welfare), including Public Health Emergencies program and Vaccines program**
- Social Security Act (42 USC Ch. 7, Public Health and Welfare), including Medicare and Medicaid programs
- Stafford Act/Disaster Relief Act (42 USC Ch. 68, Public Health and Welfare)
- Chemical and Biological Warfare Program (50 USC Ch. 32, War and National Defense)
- War Powers Resolution/War Powers Act (50 USC Ch. 33, War and National Defense), including 2001 Authorization for Use of Military Force (AUMF).
- National Emergencies Act (50 USC Ch. 34, War and National Defense)
- Defense Production Act (50 USC Ch. 55, War and National Defense)
- PATRIOT Act — Additions and Amendments to Title 8, Aliens and Nationality; Title 15, Commerce and Trade; Title 18, Crimes and Criminal Procedure; Title 31, Money and Finance; Title 50, War and National Defense; and Title 51, National and Commercial Space Programs.
